

The objective of this course is to acquaint and familiarize students with the basic concepts and, scope of Social work

Social Work

Definition

Social work is a **profession that helps people solve their social problems and improve their lives.**

Social workers help **individuals, families, and communities** who face difficulties like poverty, illness, unemployment, or family problems.

Objectives of Social Work

1. **Help people in need**
Social workers help poor, sick, and vulnerable people.
2. **Solve social problems**
They try to reduce problems like poverty, crime, and unemployment.
3. **Improve quality of life**
They help people live better and safer lives.
4. **Promote social justice**
They support equality and human rights.

Role of a Social Worker

A social worker performs many duties such as:

- Helping poor families
- Giving counseling to people with problems
- Supporting children and women
- Working in hospitals, schools, and NGOs
- Organizing community programs

Example of Social Work

Examples of social work include:

- Helping poor children get education
- Providing food and shelter to homeless people
- Helping patients in hospitals
- Supporting victims of violence

Importance of Social Work

Social work is important because:

- It reduces social problems
 - It supports poor and needy people
 - It improves community life
 - It creates a better society
